Dear colleagues,

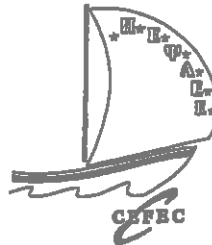

The 11th Conference of CEFEC and the 1st of ΠΕΨΑΕΕ, that is going to be held in Greece, will initiate new developments in the field of psychosocial rehabilitation.

The shaping reality in the European Community, as well as the national policies, will depend on the social interest for the people that suffer from social exclusion, the people with serious psychosocial disabilities.

In the conference of CEFEC, the issues that are going to be discussed will reflect the concerns and the every-day problems of the employees in the social firms and cooperatives. The participation of people with psychosocial needs will be pivotal and essential.

Last but not least, we hope that during the conference the necessity for the empowerment of the "new movement" will arise, a movement which will promote a humanitarian social attitude towards the people with psychosocial needs.

Christos Panettas
Chairperson of ΠΕΨΑΕΕ

Dear friends,

The participation in a conference is very important. More so, the participation in the organizing committee of a conference that deals with issues that concern us directly, issues that involve health problems, one's mental health, peace of mind and participation in the social life like a "healthy" member of society. When someone, who is considered as a "person with special needs", realizes that he/she interacts with experts on those issues that concern him/her and not only are his/her opinions and experiences taken seriously, but he/she is considered a responsible person and worthy of trust, such an experience helps his/her self-confidence immensely. It works as a motive and guiding force in our efforts to move ahead, it is a wonderful experience, not because there are no obstacles and stress, but because we see the difficulties as a challenge. You got to move ahead, life doesn't stop because of the difficulties we encounter, difficulties that in our case come mainly from within, from ourselves and we have to work hard, until we emerge stronger from the hardships.

Kavafis, one of our poets, says:

*"The Laestrygones and the Cyclopes
and furious Poseidon you will never meet,
unless you drag them with you in your soul,
unless your soul raises them up before you"*

I have to say that the other members of the conference committee helped us to bear the burden and not to be afraid of the Laestrygones and the Cyclopes.

Because that is the purpose of CEFEC and ΠΕΨΑΕΕ. We, in the conference committee are working equally, something that we experienced for the first time not in theory but in practice.
