

Oeko Service Ltd, Switzerland as an example „Green & Social Business“

Roland Z'Rotz, chairman of the board
Zurich, 3/16/2020

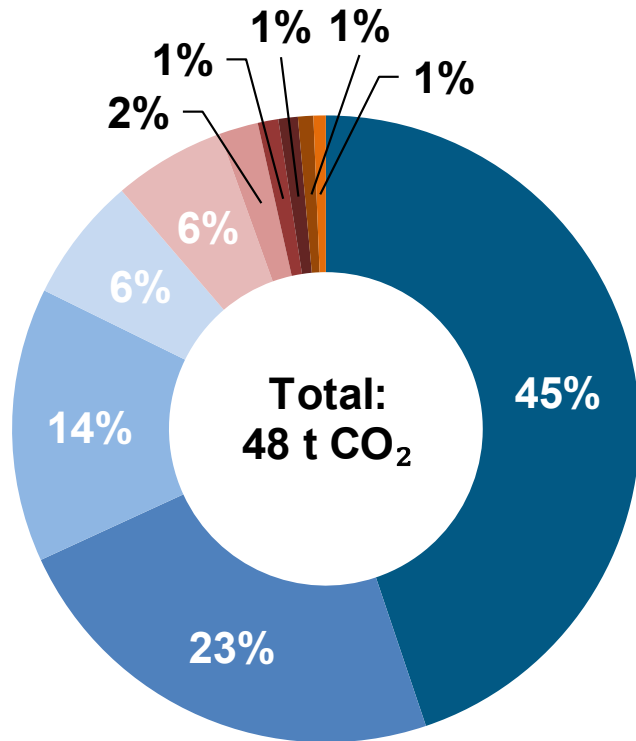

What are we doing?

- We offer workplaces with or without a handicap and apprenticeships/vocational training for people with a handicap
- Areas in which we work include: Maintenance, cleaning, gardening, bicycle sales and repair (opened in May 2018), and customer interface/administration
- Our services have been certified CO₂-neutral by Swiss Climate

Compensation: 48 t CO₂ per year are compensated by the purchase of certificates, sustainable management in the Swiss forest.

Measuring: Carbon footprint

- Commuting, 21.5 t CO₂
- Business travel, 11.2 t CO₂
- Heating, 6.8 t CO₂
- Waste, 3.1 t CO₂
- Chemicals, 2.8 t CO₂
- Garden tools*, 1.0 t CO₂
- Water, 0.5 t CO₂
- Consumables, 0.5 t CO₂
- Electricity consumption, 0.4 t CO₂
- Paper, 0.3 t CO₂

What could we learn from it for further CEFEC start-ups / steps / projects?

Combining ecological and social aspects:

Green economy helps to get orders for the employment of people with and without handicap.

Thank you

and a proposal, next step: Overview of existing alternatives in this market segment **eco-market** – asking CEFEC members
